

The Department of Broadband  
Communications & Digital Economy

Dear Sir / Madam,

Re: Your request for Telecommunication  
Submissions

We live at Vacy, in the Hunter approx 220  
kms from Sydney and 85 kms from Newcastle

We have no mobile reception.  
We have limited "Free & Air" Television  
We have very limited radio reception  
but poor reception after 6.P.M.

Our home is 500 metres off Grosford Rd  
over the Allyn River, our internet  
connection is not good and we have  
numerous black outs.

Our fear is that during "black outs"  
we have no line of communication  
which becomes worse when we are  
flooded in for 3 or 4 days.

Please keep our "copper wire" connection  
as it is vital in case of emergencies

Thank you  
Loree Alexander,
