I'm sorry if this is the incorrect way to submit, but every time I try to read the submission paper, the internet drops out.

We live approximately 28 ks west/northwest of Bingara NSW on a property, address [REDACTED] Bingara 2404 in the Parkes electorate.

Where do I start? If it rains here we lose our home landline. We, at present, are off the air. So we divert through the mobile. That is an interesting thing to do. If we can find a spot that it works we have to be very still so that it doesn't drop out.

For 2011, this is a very ordinary state of affairs.

Thank you.

Alan & Kerry Mitchell
